Big coverage in a small device

Wide Angle Lens

One camera can monitor an entire room by itself, so you don't miss a thing.

Automatic Fisheye Correction

Typical wide angle cameras suffer from fisheye distortion but these Zmodo cameras automatically correct for it, restoring a flat video with everything in proportion.

Digital Pan and Tilt

Looking around the room is easy with the Zmodo app. Just swipe to the left or right on your live view screen to change the viewing angle and look around.

Immersive VR Experience

Use a VR headset to look around the room as if you're actually there, and you'll feel as if you're right at home.

Wide Angle Lens
180° super wide-angle lens (horizontal) x 110° (vertical).

1080p HD
View and record in 1080p high definition.

Night Vision
View clearly in the dark with automatic infrared LEDs.

Motion Detection
Be notified when motion is detected with instant alerts to your mobile device.

Two-way Audio
Talk and listen using the built-in mic and speaker.

Wide Angle Lenses
Two 1080p wide-angle lenses combine to capture video in 360° (horizontal) x 360° (vertical).

Bluetooth Speaker
Play a lullaby for your baby or bring the party to life with the built-in bluetooth speaker.

Rechargeable Battery
Take the camera off the base to use it on the go for up to 2 hours. Return it to recharge.

64 GB Storage
Record continuously for weeks with 64GB of built-in storage.

Smart Hub Functionality
Pairs with Zmodo accessories for expanded smart home functionality.
