## The World's First Unobstructed 360° Drone

From Airmada, a Zmodo partner

### 360° view

This drone is specially designed to offer a total 360 degree view unobstructed by propellers, landing gear, or anything else.

### VR viewing

Compatible with VR headset, Airmada's drone allows you to experience flight as nature intended it.

### Long flight time

The drone is designed to offer the user the maximum amount of flight time in between battery changes or recharges.

### Easy-to-use mobile app

View HD video, create automatic flight paths, and enable follow-me mode through the mobile app.

#### 360° viewing

Fly and capture video in unobstructed 360 degrees.

#### Snapshot and video recording

Use the app to take photos and video during flight.

#### Mobile app for iOS and Android

The app allows for advanced settings, video viewing, and more.

#### VR headset compatible

See through the drone's cameras in 360 degrees.

#### Removable microSD for recording

Easily transfer large video files with the removable microSD card.

#### Follow me and mission modes

Set your drone to follow you and record video or send it on a custom flight path.

#### GPS sensor for outdoor positioning

GPS allows for accurate positioning and stabilization outdoors.

#### Sonar and optical flow sensor for indoor positioning

Allows for a stable indoor flight experience with minimal drift.
