The Zmodo Smart Curtain Control

Your curtains tailored to suit your needs.

A curtain that learns

The Smart Curtain can pick up on your habits over time and adjust your blinds the way you like it at just the right time. Wake up to a bright, sunny day, and go to sleep in peace.

Behaves according to weather

The curtain can receive weather updates and adjust your blinds accordingly. On sunny days you can automatically keep the afternoon sun out when you don't want your room to be too warm.

Set automated schedules

You can set schedules for your curtain to follow. You can tell your curtain to open at 9AM and close at 6PM, and you can even tell it to shut halfway at 5:30PM.

Easy installation

No need to remove your existing curtain, the Smart Curtain Control works with most curtains and can be added into their existing track.

The Zmodo Garage Opener

Control your garage from anywhere, at any time.

Always know your garage door's status

Did you forget to close the garage when you went to work this morning? You don't need to drive back anymore, just check on your phone and have instant peace of mind.

Open and close from anywhere

Use the Zmodo app to open or close your garage door, no matter where you are.

Share device

Easily share with family members and control sharing permissions within the app.

Get alerts

Get alerts when the door is manually opened or opened by a family member through their account in the app.
