Beam and Beam Alert

Smart WiFi Range Extenders and Hubs

Extended WiFi coverage for all WiFi products

Beam is an easy and affordable way to improve your wireless network. It supports speeds up to 300Mbps, and can boost your WiFi range an additional 650ft. Toggle between conservative, standard, and boost modes in the app.

Connect accessories with the hub features

Connect Zmodo smart accessories like the door / window sensors to receive alerts on your mobile device whenever the accessory is triggered.

Instantly connect Zmodo devices with a click of a button

Beam allows you to set up multiple Zmodo smart devices at once, with the click of a button. Power on your devices and choose the "Automatic" connection method, then your Beam will connect your Zmodo devices to your home network for you.

Lights or Audio - select the Beam that's right for you

Beam has a built-in night light with 3 color options and modes. Beam Alert plays an audible beeping tone to catch your attention when a sensor has been triggered.

WiFi Extender

Boost the range of your WiFi network up to 650ft. Supports up to 300Mbps.

WiFi Setup

Use the free Zmodo app to easily connect Beam to your WiFi network directly.

Plug and Play

No installation required. Plug directly into a power outlet and configure in minutes.

Remote Access

Adjust Beam's settings from any location. Toggle the broadcast signal strength and notification schedules.

Automatic Connection

Beam allows you to connect all of your Zmodo devices in your home at once with the press of a button.

Beam

LED Night Light

Beam has a built-in night light to illuminate walkways at night.

Beam Alert

Audible Alert Tones

Set Beam Alert to make warning sounds when a sensor is triggered.
