## Greet

Never miss another visitor

### Answer your door, wherever you are

See, hear, and speak to your visitors on your smartphone, whether you're at home or on the go.

### Receive smart motion detection alerts

Greet automatically records a 30-second video clip alert when it detects motion. Review these alerts from your smartphone at any time.

### Leave voice messages

Pre-record a voice message for your visitors when you go on vacation, if you're expecting a package, or if you just don't want to be bothered.

### Set up easily in minutes

Greet was designed with simplicity in mind. Mount the doorbell and connect it to your home's existing wiring, or in the case of the Greet Pro, connect it to the indoor chime for power. Download the free Zmodo app, and follow the in-app instructions to set up in minutes.

#### Stunning HD Video

See clearly with Greet's high definition camera.

#### WiFi Setup

Easily connect to your home network with the free app.

#### Cloud Alert Clips

Motion detection alert clips are securely stored in the cloud for free.

#### Outdoor Use

Never worry about your unit being damaged by heat, humidity, rain, sleet, or snow.

#### Two-way Audio

Talk and listen using the built-in mic and speaker.

#### Smart Alerts

Receive mobile push alerts when motion is detected.

#### Night Vision

View clearly in the dark with automatic infrared LEDs.

#### Remote Access

Always stay connected and view live video at any time.

#### Cloud Recording

Hold onto moments and share your clips with others.

#### Share Device

Share your device with your family and friends.
