Your answer
to the age old question:
"Did you lock the door
behind you?"

Smart Lock

The Zmodo Smart Lock

For when you rush out of your home to make it on time for work and forget to lock your door. Or for when you need to let the dog-walker in during the middle of the day. Or for when your kids come back home from school. There are many situations like this, but there's one right solution.

Unlock the door through the app or by using your key

You can unlock your door for visitors at any time, from any location through your mobile app. You can also unlock your door traditionally with your house keys.

Battery-Powered

No need for wiring or complicated installations. Receive a notification when your battery needs to be recharged.

Never worry about locking your door behind you

Check if your door is unlocked after you leave your house and lock it at any time.

Your master key, all in one app

Open the door even when you're not home. Let the maid in on Tuesdays, let the dog-walker in on weekdays. You control who enters your home and when.

Always know your door's status

Did you forget to lock the door when you left? Check on the app and have instant peace of mind knowing your home's secure.

Remote access

Use the Zmodo app to unlock or lock your door, no matter where you are.

Share device

Easily share with family members and control sharing permissions within the app.

Easy setup

Easily connect your smart lock to your network through the free Zmodo app.

Alerts

Get alerts when the door is manually opened or unlocked by a family member through their account in the app.
