## Torch Panorama

Enlighten your monitoring with a bird's eye view

### A top-down view of the entire room

The Torch Panorama captures wide angle video with a specialized fisheye lens and distortion correction, so you can see the entire room the right way on your phone.

### Be fully immersed with VR headset capability

Put on your VR headset and view the entire room live, just as if you were there.

### Change the color, change your mood

You can choose from millions of colors from the app. Set a different color for every occasion, whether it's a house party, anniversary, or a candlelight dinner with your sweetheart, the Torch Panorama can help create your perfect moment.

### Set schedules

Create automated schedules for lighting and notifications within the app, or adjust the lighting and notifications manually when needed.

#### Fisheye Lens with none of the distortion

Full coverage of the entire room with distortion correction.

#### WiFi Setup

Easily connect to your home network with the free app.

#### Light Control

Turn the light on or off from anywhere on your phone.

#### Cloud Recording

Subscription plans available for secure cloud video storage.

#### 1080p HD

View and record in 1080p high definition.

#### Millions of Colors

Choose and change your light's color at any time in the app.

#### Share Device

Sharing settings in the app allow you to share your Torch Panorama and set permissions for shared users.

#### Scheduling

Set lighting and notification schedules in the app.

#### Motion Alerts

Receive alerts when motion is detected.

#### Remote Access

View and control your lighting from anywhere, at any time from your smartphone.
